

SAHIL KUMAR

KAGGLE EXPERT & DATA SCIENTIST | PYTHON, MACHINE LEARNING & DATA ANALYSIS CONTACT

Delhi , India | sahilkumar1851320@gmail.com | +91 8375837437 | [Portfolio](#) | [Linkdln](#) | [Kaggle](#)

SUMMARY

Kaggle Expert Data Scientist skilled in end-to-end ML/DL pipelines, from data wrangling to model deployment. Proficient in Python, SQL, and advanced libraries (TensorFlow/PyTorch, OpenCV, spaCy) for computer vision and NLP. Proven ability to build predictive models and deliver actionable insights that drive data-driven decisions.

PROJECTS

Customer Churn Prediction | Kaggle Notebook

- Built an Artificial Neural Network (ANN) with TensorFlow to predict customer churn. Applied feature engineering and regularization for a robust business solution.

Iris Flower Classification API | Live Project

- Developed and deployed a production-ready machine learning API using Flask and Scikit-learn. Serves real-time predictions, demonstrating end-to-end ML engineering skills.

Handwritten Digit Classification | Computer Vision

- Trained a deep learning model on the MNIST dataset using TensorFlow/Keras. A foundational project showcasing computer vision and ANN implementation.

PROFFESIONAL EXPERIENCE

Internshala Student Partner (ISP) | Remote, India

Jan 2026 – Present

- Selected for a competitive national program to promote Internshala's training and internship opportunities through strategic digital outreach and campus engagement.
- Build and manage student communities by creating and sharing relevant career-focused content, developing foundational skills in digital marketing and communication.

EDUCATION

IGNOU UNIVERSITY	BCA	(IGNOU)	(2025-2028)
GBSSS DHARAMPURA	SENIOR SECONDARY	(CBSE)	(2024-2025)
GBSSS NANGLI SAKRAWATI	SECONDARY	(CBSE)	(2022-2023)

PROFESSIONAL SKILLS

- Programming Languages: Python, JavaScript
- Data Science & Machine Learning: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, Keras), EDA, Data Cleaning & Analysis, Model Evaluation
- Specialized AI Domains: Natural Language Processing (NLP), Computer Vision (OpenCV)
- Web & Application Development: Flask, SQLAlchemy, REST API Development, Authentication
- Databases & Data Engineering: SQL, SQLite, MySQL, ETL Development, ML Pipeline Design, Feature Engineering
- Tools & Platforms: Git, GitHub, VS Code

CERTIFICATES

- Python (HackerRank) – Verified Certificate
- SQL (HackerRank) – Verified Certificate
- REST API (HackerRank) – Verified Certificate
- Data Science Certification – MMIIT
- English Proficiency Certification – FEA

ACHIEVEMENTS

- Kaggle Expert – Awarded "Expert" tier (top tier) on Kaggle for competitive data science and notebook contributions.
- ML Engineering – Successfully developed and deployed end-to-end machine learning systems into production.
